

Project/Product name	
Steel Dome 50	
Project/Product number	
ORG8053VY	
Technical specifications	
Dimensions	500x500x250 mm
Weight	15 kg
Material	Stainless steel
Age group	All age groups
Capacity(number of users)	-
Safety and Compliance	
Standards	EN1176
Fall height	250 mm
Safety zone	D3500 mm
Surface requirement	-
Mounting	
Installation time	4 hours
Anchoring type	cast-in-place concrete
Achoring depth	450 mm
Amount of concrete	minimum 0.04 m³
Concrete type	C20 / 25
Maintenance and lifecycle	
Maintenance requirments	No maintenance required.
Spare parts' availability	Yes
Recyclability	Yes
General notes	
Ensure all components meet design specifications and are inspected before pouring the foundation.	
Mounting instructions are approved by Elverdal. Though Builder generated documents are not considered approved. For official approval, please contact Elverdal with the project name and user information.	
The design complies with the standards mentioned above.
